ANNUAL REPORT OF INSPECTOR GEN-ERAL BRECKINRIDGE.

Officers Quoted as Saying the Abolition of the Canteen Has Been Det-

REPORTS OF VARIOUS BUREAUS

GEN. GILLESPIE ON THE CONDITION OF HARBOR FORTIFICATIONS.

Postal Service Estimates Show \$135, 885,596 Is Required for the Fiscal Year Ending June 39, 1903.

WASHINGTON, Oct. 30 .- The annual report of Inspector General J. C. Breckinridge says that while there are reports of harmony and good will among the officers of the army the expression "All officers are thoroughly instructed and efficient" is not heard so frequently as before the Spanish war, due, no doubt, to the influx of young and inexperienced officers. Most reports, however, are favorable. Some lack of attention given by officers to their daily life and duties is noted. The report commends the sagacity and ability of officers who have conducted civil affairs intrusted to them abroad. The class of recruits received is reported generally up to the standard. The discipline of the troops is reported generally good.

Of the post exchange the inspector general says: "The reports show that wherever practicable post exchanges were i eperation at the garrisoned posts at the time of the inspector's visits, the prescribed rules and regulations were being fully complied with and their business was being satisfactorily conducted. A mamaintained were inspected before the law prohibiting the sale of beer in the canteens was enacted, and most of the reports would not show the effect of the law upon them. At some of the posts inspected since it was reported that the exchange was closed, as it was being operated at a loss after the sale of beer was prohibited, while at others the operations under ex-Isting law were stated to be unsatisfac-The sentiment of the army on the subject is well known and is given expression in the following remarks of in-

Colonel Burton (Cuba) says: "Officers beer has worked a hardship on the soldier and has been detrimental to good order and military discipline.'

Lieutenant Colonel Reade (Dakota) remen; and Major Sharpe (Colorado) consid- | \$146,000, and fees to special delivery messen of resort within a garrison where the sol- \$626,000. and station of life, he will seek it outside, and the innumerable brothels and whisky dens which are springing up on the edge of reservations will prove the most baleful and destructive enemy to contentment and good order which a garrison can be cursed

suppression of the canteen has practically suspended all post exchanges in these islands, and until officers and enlisted men can adapt themselves to the change it is not probable they will be re-established." General Breckinridge speaks in high terms of the various departments, especially mentioning that favorable reports have been received of the quartermaster, subsistence, medical and ordnance bureaus.

GEN. GILLESPIE'S REPORT.

Condition of Harbor Defenses and Es-

timates for Improvements. WASHINGTON, Oct. 30 .- Twenty-five-of the principal harbors of the United States now have a sufficient number of heavy guns and mortars mounted to permit of effective defense against naval attack, says General Gillespie, chief of engineers, in his annual report. He briefly describes the original project framed by the Endicott board for the coast defense and shows how it has been amended from year to year. The important changes were the provision for rapid-fire guns, a reduction in the number and calibre of heavy guns, and the elimination of armored defenses. Provision has been made for emplacing 325 heavy guns, 327 rapid-fire guns and 376 mortars. Now General Gillespie wants sites for more new mortar batteries, and for gun and mortar batteries asks an appropriation of

The fortification board having declared pneumatic gun batteries obsolete, the department has discontinued work on such batteries at Fisher's island and Port Royal. An estimate of \$300,000 is submitted for glish coal arrived at Marseilles, as against preservation and repair of fo tifications. which is less than one-half of 1 per cent.

of their value. During the year negotiations have proceeded for the purchase of fortification sites in Boston harbor (two), in Narragansett (three); New York harbor (extension of Fort Newton, three sites). Port Royal, San Francisco, San Diego, San Johns river, Fort St. Philip and Cape Hen-

ry. Va. With few exceptions these sites

must be procured by condemnation. An

estimate of \$2,000,000 is submitted for pur-For the construction of submarine mines is submitted, and for search-lights appropromoted by using the fortification plans | tion as contract laborers. for post illumination also. The estimates submitted will fully equip with searchlights four more important harbors. General Gillespie takes up in detail the state of the defenses in each of the fortification districts, showing just what has been done during the year at each of the important free postal delivery at Portland, Ind., bepoints, and what is projected. General Gillesple also makes an extensive report upon river and harbor works and discusses each improvement at con-

rates for the fiscal year ending June 30 These estimates are from 25 to 321/2 per cent. less, and, in some instances, 50 per cent, less than those of the local engineers ment. General Gillespie's totals are as fol-

Under continuing contracts, \$6,489,377; rivers and harbors (general), \$12,543,600; ex- the island. aminations, surveys and contingencies \$300,000: under California debris commission, \$15,000; prevention of deposits in New York harbor, \$70,260; enlargement of Governor's island, New York, \$500,000. Estimates are submitted by the Mississippi river commission and Missouri river commission as follows: Mississippi river commission, \$3, 695,000; Missouri river commission, \$1,065,200 Among the estimates for local improvements is one of \$60,000 for the Calumet river in Indiana and Illinois and another of \$80. 000 for the Ohlo river dam at Louisville.

Coast and Field Artillery. WASHINGTON, Oct. 30. - Col. Wallace Randolph, chief of artillery, has made his first annual report. It is a review of the organization of the additional companies of coast artillery and batteries of field ar-He refers to the reorganized artillery school at Fort Monroe as promising good results and says that the increase of the artillery has made each artillery post a school of instruction. Colonel Randolph says it is proposed to undertake upon summer, utilizing as far as possible the different militia organizations that are interested in the coast artillery work.

SECRETARY SMITH'S ESTIMATES.

Nearly \$136,885,596 Required to Run the Postal Service.

WASHINGTON, Oct. 30 .- The estimates for the entire postal service for the fiscal year ending June 30, 1903, aggregate \$135, 885,596. This is inclusive of \$1,037,370 for departmental salaries and \$216,650 for contingent expenses. The postmaster general submits no estimate for special facilities have stated why did you send to the dejority of the posts at which exchanges are | for fast mails between New York and Washington and Atlanta and New Orleans, and between Kansas City, Mo., and Newton, Kan., though there is usually a fight for these appropriations in Congress. A round half million dollars is asked for "transportation of mail by pneumatic tube or other similar devices by purchase or otherwise." The total for rural free delivery is \$6,250,000, an increase of \$2,750,000 over the most important motive. I do not know the current year. The compensation for postmasters amounts to \$20,000,000; letter carriers and substitute and temporary carriers, \$17,430,450; star route service, \$6,715,000; railroad transportation, railway postoffic generally complain that the elimination of car service and railway mail service, \$52. 463,456. The grand total for inland mail transportation is \$63,019,956, and for foreign mails \$2,542,000. The total for manufacturing of postage stamps is \$280,000; stamped ports that the consensus of opinion is that envelopes and newspaper wrappers, \$716,000; the canteen feature promotes the morals, postal cards, \$177,000; registered package temperance, discipline and health of the tags, official and dead-letter envelopes, ers the anti-canteen legislation of last win- | gers, \$742,000. The total for mail depreda ter ill advised, and remarks that if "there | tion service and all other wants of the is no authorized and decently-kept place | fourth assistant postmaster general is

dier can find recreation suited to his tastes | The issue of ordinary stamps for the next against almost 4,500,000,000 during the current year. The postal cards are expected to reach an aggregate of 735,159,008. Ordipary postage stamps issued during the fiscal year closed July 1 last numbered the collier. 4.154,838,300, including 187,383,080 of the Pan-Colonel Sanger (Philippines) reports: "The American commemorative issue. Of all these 46,805,460 were of 8 and 10-cent denominations. It is estimated the issue of 8 and 10-cent stamps for the next two years will increase about 30 per cent, yearly, and that other denominations and special delivery stamps will increase at least 8 per cent yearly. The issue of books of stamps next year is estimated at 6,750,000.

Isthmian Canal Report Delayed.

WASHINGTON, Oct. 30 .- The report of the Isthmian Canal Commission is well un- journed until to-morrow. der way, but it is stated authoritatively that it will not be ready to send to the President until about Nov. 20. Mr. Hutin, president of the Panama Canal Company is still holding frequent conferences with the commission, but up to this time has not made a definite proposition for the sale of the Panama canal to this government. It is expected, however, that Mr. Hutin wil make known within a few days upon what terms his company will dispose of its in-Walker, the chairman of the commission, to call a meeting of the comission for some date early in November, when the report to the President for transmission to Congress. American Coal in France. WASHINGTON, Oct. 30 .- Consul General Skinner, at Marseilles, under date of Oct 1900, says Mr. Skinner, 407,752 tons of En-7,739 of American. From January to July of this year, however, the figures stood

The Finest Cake

Is made with Royal Baking Powder. Always light, sweet, pure & wholesome.

at 389,303 tons English and 97,622 tons Amerlcan. The only disquieting element in this trade, Mr. Skinner says, is the necessity for employing foreign shipping for the transportation of American coal. However, he records a more favorable condition of the freight rates, due, it has been suggested, to the fear on the part of the British ship owners of American competition in the COMPLETION OF MARIE SAMPLE-

carrying trade. Democrat Appointed Justice.

WASHINGTON, Oct. 30.-The President to-day made the following appointments: Justice-Frank I. Osborne, North Carolina, associate justice, Court of Private Land Claims.

Navy-Lieutenant commanders, Clarence A. Carr, John A. Bliss; lieutenants, Leland N. James, John Stict; gunners, Ion Hill, Charles Herdahl

Hon. Frank I. Osborne, appointed to succeed Judge Fuller as associate justice of the United States Court of Private Land Claims, is, like his predecessor, a Democrat. He is a resident of Charlotte, N. C., and was formerly attorney general of North

Voyage of the Floating Dock.

WASHINGTON, Oct. 30.-Rear Admiral Endicott, chief of the Bureau of Yards and Docks, received a telegram to-day stating that the big floating dry dock destined for the naval station at Algiers, La., passed Key West at 4 o'clock yesterday. The dock still has about 500 miles to traverse. It is learned here that the arrival of the dock will be made the occasion for a big aquatic demonstration, it being planned to have a fleet of steamers meet the dock at the mouth of the Mississippi and accompany it up the river to Algiers.

Waiters to Be Deported.

LONG ORDEAL OVER.

(CONCLUDED FROM FIRST PAGE.) telegram sent by Admiral Schley to the department July 10, saying in substance that ne did not desire to assume entire credit tory belonged to the fleet under the command of Admiral Sampson. In reply to a question from Captain Parker he said he had taken this dispatch to Admiral Sampson, "who stated that he was very glad tillery under the army reorganization law. I that I had sent it, and thought it was very generous. 'Who was generous?"

> "I, of course THE COURT'S QUESTIONS.

The court then asked questions. "While an extended scale drill operations next off Cienfuegos could you see the shore to the westward so distinctly as to form an idea of the feasibility of making a landing swered this question in the affirmative, and | which a new trial must be granted. in reply to the next question said he had seen no fishermen or fishing boats on shore with whom he could have communicated. | Special to the Indianapolis Journal After a number of questions concerning coaling the court asked: "As you were ordered to Cienfuegos was it not your duty to communicate direct with the senior officer leaving there?

"If he had important information I think it was his duty to communicate it to me." "If you were governed in making the retrograde movement by the motives you you gave to Captain Cotton to send in cipher from Kingston?"

"That is a very difficult question to an-Admiral Ramsay-You gave four motives | sion has not yet been reached. for the retrograde movement. These motives do not appear clear to me. "I telegraphed mainly regarding the coa

supply because I imagined that would be that I gave the reasons for it, but I did in a subsequent dispatch to the department stating that the movement to the westward had been for a certain object,' "If it was your intention on May 31 to develop the Spanish shore batteries why did you signal that you were going in with the three ships-the Massachusetts, the Iowa and the New Orleans-only to fire on

the Colon?' "I intended to use the large guns for that purpose, expecting to make another signal after boarding the Massachusetts, which did-told the New Orleans to fire at the

batteries with her small guns." Replying to other questions Admiral Schley said he thought some of the projectiles fired at the American fleet May 31 came from other Zocapa hills. He was satisfied that some of them from the forti were from eight-inch guns; that the Merrimac had been required to use her own machinery as soon as it was repaired, and that the chief engineer of the squadron had explained to him the extent of the damage to

The last question of the court was as follows: "Where could the Spanish squadron have taken refuge if it had come out of the harbor at Santiago and had steered to the southward?

"It could have gone to Jamaica, but I should imagine that after having gone sufficiently far to evade me the Spanish fleet would have skirted around to the westward, knowing that Admiral Sampson had left Havana for the east. Then, at 3:08 p. m., Admiral Schley was finally excused and at 3:10, there being no other witnesses present, the court ad-

THE SUPPRESSED REPORT.

It Was Preliminary and Described the Battle Off Santiago.

WASHINGTON, Oct. 30 .- It is learned tonight that the original and unpublished report of Admiral Schley of the battle of Santiago to Admiral Sampson referred to in terests. It is the intention of Admiral the proceedings before the court of inquiry differed from that subsequently made in will be agreed to and signed and forwarded that it omitted mention altogether of the est medical organization west of Pittsburg. cruiser New York, and that it also requested that the latter (Admiral Sampson) ence with him on the subject of the report. have the commanding officers or captains f the vessels engaged transmit to him (Schley) their detailed accounts of the action in order that he might write a full and complete official report of the battle.

The suppressed preliminary report made y Admiral Schley is dated off Santiago July 3, and is addressed to Admiral Sampson, the commander-in-chief of the North Atlantic station. The report in substance describes the coming out of the Spanish attention to the fact that signals were made to the vessels of the American fleet which were obeyed by all the ships. It gives briefly the part played in it by each one of the ships, showing that the Brooklyn, the Oregon, the Texas and the Iowa remained in action until the Viscaya went the Brooklyn and the Oregon. The admiral commends the bravery of all the American officers and crews engaged in the fight, and recommends the commanding officers for gallant and meritorious conduct and for the superb handling of their ships. Then follows some routine matter, giving the Spanish losses, the injuries to the American fleet and the casualties. It then asks that Admiral Sampson have the commanding officers transmit to him (Admiral Schley) their detailed accounts of the action in order that he might write a full

and complete official report of the battle. Two Carpenters Killed.

SON'S EVIDENCE AGAINST DUNN.

Cross-Examination Very Rigid, but the Girl Stands Strain Well and Her Testimony Is Unshaken.

MATTOX IS DECLARED GUILTY

VIGO COUNTY JURY CONVICTS HIM ON MANSLAUGHTER CHARGE.

Traction Franchise Fight at Logansport-Y. W. C. A. Convention at Franklin-Schwab in Elwood.

FORT WAYNE, Ind., Oct. 30.-The State rested in the Dunn case at 3 o'clock this afternoon, and adjournment was taken until to-morrow. Marie Sampleson's crossexamination was finished at half-past 11, when she had been on the stand in all six

This morning she was led to tell about a quarrel with Edna Cothrell, when riding in a buggy, with Del Reed driving. In this she said Edna had accused Dunn of maligning her, and Marie defended him. Edna later in the day denied the quarrel, and also denied that she was at Dunn's in the afternoon, as Marie swore she was. She could not, therefore, have closed the cistern lid after Marie heard Alice scream, as Marie testified.

Marie was led to make admissions concerning the treatment given her at the jail would reappoint Aulec Palmer marshal of until she was willing to sign the statement prepared for her by the State's attorney. She admitted that she and Del Reed occupied the same apartments about one-third of the time, and that she had perjured herself before the coroner. She said she was afraid of Dunn. Her attempt at suicide, she said, was because her sister refused to allow her to marry Jim Burkdale. Del Reed was cross-examined, but added little light to the known facts, although he has been kept in prison since July 9 as a witness. His testimony only went to show that Dunn knew of and permitted his cothe last witness for the State, but apart from the fact that she contradicted the chief witness for the State, thus impeaching Marie's credibility, she contributed little of

Mattox Guilty of Manslaughter.

worth or interest

Indorsement of Paine's Celery Compound

Attracts the Attention of Medical Journals.

Thousands of Such Cases-Mr. Storms's Letter.

A medical journal, says a writer in the Boston Traveler, has the names and addresses and full histories of hundreds of cases of chronic and acute rheumatism that have been permanently cured by the wonderful remedy which has recently been attracting wide attention since Governor Yates, of Illinois, publicly indorsed it.

Nothing else has ever been known to cure like obstinate cases. When all others have failed this marvelous remedy for blood and nerves has made sick people well.

Paine's celery compound corrects unhealthy nerve action and feeds the nerve centers with the elements needed to build them up again into healthy tissues. It cleanses the blood of every trace of polsonous humor and encourages a rapid growth of the red corpuscles upon which the vigor of the entire body depends.

Its action is perfectly intelligible to every able physician. Diseases of the nervous system do not come without warning. Rheumatism, dyspepsia, insomnia, and diseases of the liver and kidneys are but loud cries for a

prompt increase of nourishment for the

A WESTERN CATTLE KING

and oldest inhabitants of the north part | compound feeds these vital parts, and it is upon its marvelous power of nourishing all the nerve tissues and purifying the blood that its remarkable cures depend.

Weariness, lack of energy and despond-

ency are more a matter of nerves and brain than of muscles. At this season of the year, when thousands of overworking people are entering upon the drudgery that come, many are already showing the symptoms that sooner or later result from hurry, care, anxiety and haste without the amount of rest and recreation that nature intended. Thousands of tired mothers, school teachers and too ambitious scholars will reveal

the strain before the winter is over It is high time for all to strike at the root of the trouble. Begin the work of recuperation and cure at the earliest mo-

All who try it will find strength and freedom from disease in Paine's celery compound, which corrects unhealthy nerve action and supplies the veins with pure, more abundant, more vigorous blood. Paine's celery compound is almost universally prescribed by physicians-who differ on many other things, but who estimate at its proper * * The Rev. F. C. Stanley, of Van worth this greatest of all remedies for the prevention and cure of disease. It is no exaggeration to say that every week brings hundreds of letters from those who have used Paine's celery compound and have been benefited by it. Above is the picture VALPARAISO.-William Johnson and of Representative G. H. Storms, one of the cattle kings of Kansas, who says: "I regard Paine's celery compound as the most beneficial and valuable of remedies, especially during the fall months." He writes. as have many thousands of others, of the good the remedy has done in his own case, Let the reader try it and prove for himself

> the abundant truth of all that has been It is not what Paine's celery compound says, but what it does, that tells the story

of its world-wide fame.
